Message

Subject: **Written Testimony for 5/9 > Infestation at Julia R Masterman Laboratory and Demonstration School**

Original Message:

On a daily basis, cockroaches are infesting and multiplying in the school, the nurses office, the students hallway lockers, and rodents are reported in the walls and ceilings. Why is the district waiting until the summer to exterminate while thousands of children's homes will become infested through backpacks and clothing? It's taking a mental toll on the children too. This is a health hazaard. Health Dept and SDP Please, do everything possible to clean it up.
